Get your money's worth...

Electronics Inc. pioneered shot peening training in 1991 and remains the leader of quality shot peening training. Electronics Incorporated Education Division is a Partner in Education with Nadcap and will assist your company in preparing for a Nadcap audit (see sidebar).

All EI instructors have the credentials and hands-on experience to teach proper shot peening practices and can assist you with your specific shot peening challenges.

Questions?

Whether you have questions about an upcoming workshop or the need for information about on-site training, don't hesitate to [contact us](#) with any of your shot peening training needs.
