

Aviation Safety - Successes and Challenges

Review of recent global aviation safety performance and discussion of aviation industry initiatives to support new safety programs. Session will address specific challenges in runway excursions, approach and landing accident reductions and insight into future opportunities in the aviation industry.

Directions: Parking is available nearby in the University Street parking garage.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
