

Indiana State Flight Academy Safety Meeting.

We will take a look at some recent mechanical related accidents to see if it was Mechanical Failure or Mechanic Failure. Cross Cuntry problems begin with poor planning and execution. Learn somethings they "don't teach you in school."

Directions: This seminar will be held in the John T. Meyers Technology Building, Room 105. The Myers Tech Building is located on the SE corner of the Quadrangle, between 6th and 7th street. A campus map is attached under "additional public documents." Look for Building 37.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
