

Free Proficient Pilot Seminar - From Passengers to Copilots

If you were flying along enjoying the beautiful blue sky, when for some reason your health was suddenly reduced to the point of an inability to safely fly the aircraft – would you rather the person beside you be just a freaked out passenger, or turn into a "copilot" and save the day?! Wouldn't it be great to know they'd be able to take the flight controls, and with some sense of confidence, get the wheels back on terra firma in a safe fashion! During this seminar, we'll review the highlights that will help passengers and pilots work toward increasing their flying safety by always having a "copilot" beside them.

Directions: You're invited to bring your family and friends to our free event here at Sweet Aviation in the main terminal building at the Smith Field Airport in Fort Wayne, Indiana.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
