

## FAASafetyTeam Safety Seminar

This seminar is to help pilots plan their transition to any unfamiliar fixed-wing airplanes, including type-certificated and/or experimental airplanes. It will provide information and guidance to owners and pilots of experimental, simple, complex, high-performance, and/or unfamiliar airplanes. We will also take a look at some recent mechanical related accidents to see if it was Mechanical Failure or Mechanic Failure.

**Directions:** This event will be in the main hangar.

### A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
