

Air Traffic Control - Keeping You Safe

Please join us for a free, informative and interactive safety seminar as a few air traffic controllers from the FWA air traffic control team give us some highlighted tips and tricks for interacting well with air traffic control in both the VFR and IFR system. They are excited about putting a face with the voices and tail numbers they've been interacting with over the radio!

Directions: This free pilot safety seminar is hosted by Sweet Aviation at the Smith Field Airport (KSMD) terminal building in Fort Wayne, Indiana.
