

Over Reliance On Automation with VFR and IFR Scenarios

Over reliance On Automation can present many problems such as additional workload or reduce workload. Along with adapting and training required for advance avionics. VFR and IMC scenarios will be presented during this seminar to enhance discussion and learning. VFR scenario will examine a VFR Crash (Weight and Balance). IFR scenario will examine Stabilized Approach and Discussion upgrading your avionics.

Parking is available in front of the Terminal. Those flying in may park on ramp. Presentation will be from 7PM to 9PM EST.
