

Introduction to Human Factors and Safety Culture

The FAA and industry will conduct a public education campaign emphasizing the benefits of Human Factors Education and training. Human Factors education is particularly effective in improving Aeronautical Decision Making, Safety Risk Management, Crew Resource Management, Aircraft Design and Automation, Human Performance and overarching Safety Culture. Additionally, the seminar the Swiss Cheese Theory will be introduced to the participants

Supporting this program will be VFR and IFR Scenarios in which you have to make best decisions of what to do. Students and Instructors are encouraged to attend.

When entering the terminal building the conference room will be to the left. Parking in front of terminal building. Airplane parking on the ramp.

This will be a two (2) hour seminar on November 20, 2025 from 7pm-9pm.
