

## EAA Chapter 938 Monthly IMC Club Meeting

The EAA IMC Club provides a "hangar flying" experience organized around instrument flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion about unusual or interesting charts, changed rules and procedures, and member experiences. We also have occasional guest speakers.

**The scenario(s) we will discuss at this meeting is/are:** We will be reviewing the new ForeFlight Dynamic Procedures and Garmin SmartCharts to see how each one presents instrument procedure information to pilots in new ways. This presentation will cover the presenter's pros, cons, and safety aspects of each product.

Bring your EFB, your experience, and your questions, and be ready to participate.
