

## EAA Chapter 938 Monthly IMC Club Meeting

The EAA IMC Club provides a "hangar flying" experience organized around instrument flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion about unusual or interesting charts, changed rules and procedures, and member experiences. We also have occasional guest speakers.

**The scenario(s) we will discuss at this meeting is/are:** We will be looking at inflight loss of control with several short videos and handouts. In addition, we will review the Tennessee Fly Girl final accident report and take-a-ways from that tragic accident.

Bring your EFB, your experience, and your questions, and be ready to participate.
