

Runway Incursion Avoidance: Airport Signs, Markings and Airmanship

Did you know that 80% of all pilot-caused runway incursions occur during taxi to the departure runway? Most airports have markings, signs, and lights designed to assist you in navigating around the airfield. This three hour seminar is a complete review of airport signs and markings you may encounter at controlled and uncontrolled airports.

Directions: This FREE safety seminar will take place at the Stevens Point Municipal Airport (KSTE). For airport details go to www.airnav.com.

A message from the National FAAS^Team Manager

Over 136,600 pilots earned WINGS credits last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
