

# Cross Country Pre-Flight Planning through Dead Reckoning

Leave your ipads and Garmins turned off and get a short refresher on basic cross country preflight planning skills. We will be using a "wireless" Green Bay Sectional, Aviation Sectional Plotter and a basic E6b computer to figure out the course, speed, time and distance to be traveled from KSTE to KCLI.

**Directions:** The Safety Seminar will be held in the FOUNDERS WING at the EAA AirVenture Museum. Advanced Power Point Presentations integrating photographs, animations and digital images are used for enhanced visual imagery.

## A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
