

## The OODA Huh?

Close to 80% of aircraft accidents are attributed to poor ADM. The FAA has increased risk management and ADM awareness at all levels of pilot levels of training. The OODA Loop is a decision making concept which integrates the FAA concepts of risk management, PAVE, CARE, TEAM, IMSAFE, CRM, SRM, hazardous personalities, situational awareness, etc. into one useful tool to bring the concept of ADM from the classroom to the cockpit.

**Directions:** Wausau Flying Service conference room.

### A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
