

Wisconsin FAASTeam presents:

# 'Advanced Weather for IFR Pilots': IMC Club Joint Meeting

8:30 Coffee & rolls Welcome by Karen Kalisek and Charlie Smith, CFI-Is. 9:00 am Soundings/Skew-T/Log-P diagrams by Rich Mamrosh from the NOAA/NWS Green Bay office. 10:00 am IMC Club IFR Scenario presented by Andy Miller, CFI-I. 11:00 am New NWS weather products for pilots by NOAA/NWS Green Bay office. Safe instrument flying is a matter of mitigating risk, personal minimums and standard operating procedures. If you have and use sound judgment, establish personal minimums and good procedures, you can enjoy a long and successful career of instrument flying. IMC Clubs provide organized "hangar flying" focused on building proficiency in instrument flying. An instrument rating is not required for attendance.

**Directions:** Public Safety Building Training Room at KATW, second floor of the ARFF facility south of the terminal/tower/hangars area and west of the fuel farm -- autos should park in the lot next to the building. Aircraft flying in should park at Platinum Flight Service FBO on the South side of the airport - the Airport will provide a shuttle to the Public Safety Building.

**A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
