

## Lessons from Low, Slow, Cross Country and Mountain Flying

Jeff shares learning experience gained flying a Super Cub from the mid west to the mountains of Idaho. While in the mountains he was aided by an experienced mountain instructor flying a separate plane. Discussion includes, runway evaluation, high altitude flight, canyon flying traffic protocol, weather analysis and limitations, emergency equipment selection and other subjects related to light plane flying in mountain terrain. The discussion will be augmented with photos taken during the flight.

**Directions:** Airport Conference room located to the left of the entry lobby.

### A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
