

## 'Longest Flight' IFR Scenario: Green Bay IMC Club, with pre-meeting speaker on EFB organization

A good activity for anyone interested in instrument flying. Use real world scenarios to increase your level of safety in the IFR environment. Safe instrument flying is a matter of mitigating risk, personal minimums and standard operating procedures. The Green Bay IMC Club provides organized "hangar flying" focused on building proficiency in instrument flying. An instrument rating is not required for attendance. The IMC Club meeting begins at 7:00 pm and will be preceded by a presentation on useful EFB applications, as well as flight bag organization tips, both physical and EFB.

**Directions:** Upper Level Meeting Area

### A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
