

Safety in Unmanned Aircraft Systems Operations and Training

During the Safety in Unmanned Aircraft Systems Operations and Training seminar speakers will explore topics related to both commercial and recreational UAS operations. The speakers are all daily users of UAS and are pioneers in the industry. Most of the speakers also have Part 61 ratings.

This is also an opportunity for manned and unmanned aircraft operators to meet and network fostering a open dialog in the aviation community. Registration is required for headcount purposes. Click here to register.

Directions: This fly-in event is being held at Aeris Aviation's Clubhouse. Signs will be posted at the entrance of the driveway for automobile parking. Cones & ground guides will be available to facilitate aircraft parking. If you plan to fly-in please ensure you indicated that when you register. Registration is required for headcount purposes. Click here to register.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
