

FAASTeam presents:

# Mastering The Art Of Aviation

EAA/VMC Club, through the EAA's global Chapter structure, provides organized "hangar flying" focused on building flying knowledge and skills. The program's network promotes a safety culture through continued education and believes that we develop safety and proficiency through education and real life experience. Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, aviation professionals provide informative WINGS presentations. Membership in the EAA/VMC Club is encouraged but not required to participate in this meeting. For more information and to take part in this event, click the link below and register TODAY!

This Month's Topic: Alaska - "You have been contacted by a good friend... He and several others are planning a flight to Alaska in the early summer. It is something you have dreamed about doing for many years, and you jump at the chance to go."

**Directions:** The meeting will be held in the Skyroom at the main terminal building at Timmerman Airport.

## Event Details

**Tue, Dec 12, 2017 - 19:00 CST**

### **Spring City Aviation**

9305 W. Appleton Ave.
