

FAA Safety Team presents:

# Risk Based Flight Review and Personal Minimums

Bill Moore, Ashland Airport Manager, Tyler Seamans, FAA Safety Representative-CFI, and the Milwaukee FSDO are sponsoring a FAA Safety Event, "Risk Based Flight Review and Personal Minimums".

Part I; Risk Based Flight Review and You Presenter Jurg Grossenbacher, FAASTeam Program Manager from the Milwaukee FSDO. We will discuss the importance of the flight review and the weight that it carries in general aviation safety. We will discuss several accidents that occurred in Wisconsin that show the importance of a proper, thorough flight review.

Part II; Tyler Seamans CFI at Rhinelander Flying Services will speak on Personal Minimums. Weather is often blamed as the cause of accidents when, in reality, it's poor decision making that's the culprit. The go/no-go decision-making process starts long before entering the cockpit. But the right choice at a crucial moment before or during a flight can be difficult to make. In this discussion you'll learn:

- Why getting the big weather picture is important
- How to improve your go/no-go decision-making process
- Tips to "weatherize" your mindset and avoid

## Event Details

**Mon, Mar 4, 2019 - 18:00 CST**

**Ashland Main Terminal**

50511 State Highway 112

Ashland, WI 54806

**Contact: Jurg Grossenbacher**  
**(414)-486-2995**
