

Icing Insights - When Where Why and How to Forecast

Aviation weather forecaster Rich Mamrosh will share insights on icing based on his decades of forecast experience. Rich will explain and illustrate the factors leading to various types of icing conditions. In addition to learning when, where and why icing occurs, pilots will receive insights on our regional weather conditions. Attendees will also gain an understanding of the weather tools and products that are most helpful in assessing current and forecast icing potential. Rich's presentation will be followed with a question and answer session.

Directions: Jet Air FBO hangar located at 1921 Airport Drive, Green Bay, WI. Enter the FBO building and follow signs.
