

Wisconsin FAA Team presents:

# Runway Incursions Wisconsin Statistics

Runway Incursions are trending upward in Wisconsin over the past two years. Jurg Grossenbacher, FAAS Team Program Manager from the Milwaukee FSDO, will discuss the statistics for the recent runup in the runway incursions. We will discuss causal factors that contribute to the increase. We will discuss the Standard Operations the every pilot needs to adhere to to mitigate the chances of an incursion. We will discuss the common distractions during a flight lesson, flying for pleasure or business. We will look at several of the Pilot Deviations in detail to show how they could have been avoided. Wings Credit available. Additionally; we will have John VanDeVoort of Heartland Aviation talk about the importance of pilot proficiency through the WINGS General Aviation training program.

**Directions:** The seminar will be held at the main conference room located in the hangar of Heartland Aviation, located at 3800 Starr Avenue, Chippewa Valley Regional Airport, Eau Claire, WI.

#### **A message from the National FAAS Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
