

FAASTeam presents:

# ASI Investigates Weather Accidents

Presented by Andy Miller, CFI, AOPA Great Lakes Ambassador

Weather is often blamed as the cause of accidents when, in reality, it's poor decision making that's the culprit. Arm yourself to make the right weather choices at crucial moments before and during flight.

Here's what you'll learn:

- Why getting the big weather picture is important
- How to improve your go/no-go decision-making process
- Tips to "weatherize" your mindset and avoid traps like flying VFR into IMC
- Why technology can be a great tool and your worst enemy in weather flying

**Directions:** Centrally located in Indiana between Indianapolis and Ft. Wayne just off I-69

#### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Join us on Facebook: <https://www.facebook.com/groups/GASafety/>

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants.
