

FAASTeam presents:

Flying into Class C and Class D Airspace

We will discuss airport markings, show you how to avoid runway incursions, practice radio procedures, and get you ready to go to Janesville and Madison for that very expensive burger.

A scenario based seminar featuring a review of Class C and D operating procedures, preparing and planning for the flight, minimum required equipment, charts and NOTAMS, obtaining ATC services, developing situational awareness, avoiding runway incursions, and anticipating ATC. There will be a practice session with instructors playing the part of ATC. This seminar is a full participation event, so let's have a little fun!

Weather allowing, we are planning to put it to the test with a group flyout to Janesville for lunch.

Directions: Palmyra Flying Club

Hwy 106

Palmyra WI 53156

Directions to Venue: Town of Palmyra Municipal Airport is located on the north edge of the Village of Palmyra WI just west and adjacent to Hwy 106.

Car parking on either side of Airport Road. Aircraft parking on the grass area near the fuel pumps (no public fuel available) or on open grass areas near the west side of the runway.
