

FAA Safety Team presents:

Spring City Aviation Flying Club and VMC Club Meeting

This month's topic: "The Lights Are Out" - "Everything is going as planned... You proceed directly to Harbor Springs to land... When you arrive over the airport, you key the microphone to turn on the runway lights."

EAA/VMC Club, through the EAA's global Chapter structure, provides organized "hangar flying" focused on building flying knowledge and skills. The program's network promotes a safety culture through continued education and believes that we develop safety and proficiency through education and real life experience. Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, aviation professionals provide informative WINGS presentations. Membership in the EAA/VMC Club is encouraged but not required to participate in this meeting. For more information and to take part in this event, click the link below and register TODAY!

Directions: The VMC Club meeting will be held in the main terminal building at Timmerman Airport, upstairs in the Skyroom.
