

FAASTeam presents:

Green Bay IMC Club Meeting - Plate or No Plate Scenario

In this month's scenario, a pilot intends to fly from Indianapolis to Hancock Michigan. However, things do not go as planned. Join us to review this real world situation and discuss what actions a PIC could take in the situation that occurred. EAA/IMC Club, through the EAA's global Chapter structure, provides organized "hangar flying" focused on building instrument flying knowledge and skills. The program's network promotes a safety culture through continued education and believes that we develop safety and proficiency through education and real life experience. Monthly meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, aviation professionals provide informative WINGS presentations. You do not have to be an instrument rated pilot to attend. Membership in the EAA/IMC Club is encouraged but not required to participate in this meeting. For more information and to take part in this event, click the link below and register TODAY!

Directions: Follow signs to meeting room located at 1921 Airport Drive, Austin Straubel International Airport, Green Bay, WI.

Prior to attending a safety seminar, please review and abide by current CDC, State and Local health guidelines.
