

FAASTeam presents:

Uncontrolled Fields - Patterns Entries and Communications

Pilot: "Uhh Traffic, this is Skyhawk 123, I'm going to make a right down for 18"

Friendly voice on the Unicom frequency:
"Skyhawk 123, the airport has left traffic for all runways."

Have you heard this? I know I have. Come join us for an hour refresher on Pilot Controlled Fields, proper patterns, entries and radio etiquette. Everyone following the same playbook is important for being able to practice, see and avoid.

Prior to attending a safety seminar, please review and abide by current CDC, State and Local health guidelines.

Directions: This event will be hosted in the Pilotsmith @ Jet Air facility. Please enter the flight school and you will be able to access the hangar where we are hosting the event.

A message from the National FAASafety Team Manager
