

FAASTeam presents:

Personalized Training Who needs it

Jurg Grossenbacher. FAA Program Manager will speak on the importance of a personalized training program that will not only make you a safer pilot but also will make flying more enjoyable for you and your passengers. Why bother? Accidents and incidents continue to occur. A number of them are attributed to lack of proficiency and Standard Operating Practices (SOP). We will talk about a recurrent training program that not only makes sense but is also more engaging for you and your instructor. We call it the FAA WINGS flight activities, courses, webinars, seminars and so much more.

Prior to attending a safety seminar please review and abide by current CDC, State and Local health guidelines.

Directions: Please follow signs to Main Terminal located at 2525 Aviation Drive, Waukesha, WI.

A message from the National FAASafety Team Manager
