

FAASTeam presents:

VMC Club at Timmerman Airport Spring City FBO

We view and discuss short videos presenting flight scenarios that any VFR pilot can learn from others. Members discuss short videos and how they would respond to the given scenario. This is an open Forum for free ideas and we all learn from Shared Experience! All are welcome to join in the discussion. Please register to get WINGS credit towards your next Flight Review for attending this event. These meetings use real-world scenarios to engage members, and allow a free exchange of information that improves awareness and skills. The intent is to create a community of pilots willing to share information, provide recognition, foster communications, promote safety, and build proficiency. Through the EAA VMC club programs, visual flight rule pilots have improved their proficiency, and they love it.

Directions: Meet in the Chart Room, Upstairs just to the Right of the FBO Main Entrance Red and White Awning.

Spring City Timmerman FBO will be closing at 4:30 PM so no fuel will be available to those flying in to this event.
