

FAASTeam presents:

## **Poplar Grove IMC and VMC Safety**

## VFR

What should have been a routine flight gets an unexpected twist: Tower clears you to land on a runway you don't feel is safe but won't clear you to land on one that looks much better. Will you go with the clearance, insist on your preference, or make an impromptu change at night and in busy airspace?

## IFR

If your POH says flight into known icing is prohibited, you can't do it. But icing in the real world isn't so cut-and-dried. How will you complete a flight that hasn't seen a hint of ice, even in sub-freezing temps, but where descending into the clouds below you could be a non-event—or an emergency you're ill-equipped to handle.

Members discuss short videos and how they would respond to the given scenario(s). This is an open forum for free ideas and we all learn from shared experience! All are welcome to join in. With the combined IFR & VFR scenarios' this seminar should be 2 hours long and enhance everyone's education.

Prior to attending a safety seminar please review and abide by current CDC, State and Local health guidelines.

## Event Details

**Wed, Feb 8, 2023 - 19:00 CST**

**EAA Chapter Hangar**

5175 Orth Rd, Poplar Grove, IL  
Farthest west hangar upstairs  
Poplar Grove, IL 61065

**Contact: Larry MARTIN**  
**(872) 205-0924**

[larrymartin22@icloud.com](mailto:larrymartin22@icloud.com)

Select #: GL13119466

Representative LAWRENCE JAMES MARTIN

**Directions:** Meeting held at EAA 1414 hangar which is off of Orth Rd, the furthest west hangar in the Upstairs classroom. If flying in, the hangar is on the far North side of the field, and can taxi up to just short on the east side of the Chapter hangar.
