

Safety Tips and Meet the DPE

As humans we are creatures of habit, and this also applies to piloting an aircraft. From initial training through the end of our flying days we tend to develop habits. Some are good habits and others perhaps developed over time without much consideration. During this presentation you will learn about six thoughtful habits that can make you a better and safer pilot on every flight. The program also includes a DPE question and answer session to address audience questions about pilot examinations.

Prior to attending a safety seminar please review and abide by current CDC, State and Local health guidelines.

Directions: Go to main terminal, follow signs
