

FAASTeam presents:

IMC Club Monthly Meeting EAA Chapter 766

IFR Scenario presented by Tony Kolar CFII,
Volunteer FAA Safety Representative
Guest instrument pilots and students welcome.
This seminar is not meant as a lecture but rather
an open discussion forum using real world
scenarios to increase your level of safety in the
IFR environment. Safe instrument flying is a
matter of mitigating risk, personal minimums and
standard operating procedures. If you have and
use sound judgement, establish personal
minimums and good procedures, you can enjoy a
long and successful career of instrument flying.
The Sheboygan Falls (WI) EAA 766 IMC Club
provides organized "hangar flying" focused on
building proficiency in instrument flying. An
instrument rating is not required for attendance.
Prior to attending a safety seminar, please review
and abide by current CDC, State and Local
health guidelines.
