

Eat a Hamburger with your Crosswind Landing Seminar

If you fly airplanes then this seminar is a must! Takeoff and landing accidents account for 45% of all GA Accidents and Wisconsin had 18 landing accidents in 2022 alone, why is that? Is it that pilots aren't proficient? Is it that pilots forgot the basics and forgot their crosswind landing techniques?

During this short 30 minute seminar **John Chmiel**, will talk about Crosswind Landings and why so many pilots struggle with them. John is a veteran Flight Instructor that will answer many of your questions.

- Why are we talking about Crosswind landings
- Unstabilized Approaches
- How do we stay safe
