

What about that Landing

If you fly airplanes then this seminar is a must! Takeoff and landing accidents account for 45% of all GA Accidents and Wisconsin had 18 landing accidents in 2022 alone, why is that? Is it that pilots aren't proficient? Is it that pilots forget the basics or is it because they try to save the landing rather than perform a go around.

If you felt that the Engine Failure Startle Effect was worth your time to attend in 2022 then you will be pleased to know that the same team of CFI's have developed the Good Landings do not happen by Accident seminar series. During this seminar Jurg Grossenbacher, Milwaukee FAA will answer these questions for you.

- Why are we talking about landings
- Unstabilized Approaches
- What is stabilized

Event Details

Mon, Oct 2, 2023 at 19:00 CDT

Watertown EAA Chapter

1741 River Drive

Watertown, WI
