

## Poplar Grove IMC and VMC Safety

**IFR:** How do you decide if the challenge you're facing is a good opportunity to expand your horizons or an invitation to disaster?

**VFR:** The weather is perfect and the flight is just a quick hop to pick up a friend. However, the destination airport is virtually surrounded by a fortress of Class C and D airspace. The communications and coordination could be a nightmare with two radios and you only have one. Is there a simple and safe solution?

Members watch 2 short videos scenarios and discuss how they would respond to the given situations. This is an open forum for free ideas and we all learn from shared experience! All are welcome to join in. With the combined IFR & VFR scenarios' **this seminar should be 2 hours long** and enhance everyone's education.
