

Green Bay IMC Club Meeting - Meet the Barany Chair

Attendees will learn the history of the Barany Chair and how it is used to simulate, evaluate, and overcome spatial disorientation. A Barany Chair will be demonstrated and available for use by participants during the meeting.

EAA/IMC Club, through the EAA's global Chapter structure, provides organized "hangar flying" focused on building instrument flying knowledge and skills. The program's network promotes a safety culture through continued education and believes that we develop safety and proficiency through education and real life experience. Meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, aviation professionals provide informative WINGS presentations. You do not have to be an instrument rated pilot to attend. Membership in the EAA/IMC Club is encouraged but not required to participate in this meeting. For more information and to take part in this event, click the link below and register TODAY!
