

Pro Tips for CFIs and Students Go Around Reluctance

Executing a safe Go Around is a Success not a Failure! Teaching this maneuver properly is so important in preventing future accidents. We had an accident that occurred to one of our Wisconsin pilots two weeks after passing his initial practical check ride. We will talk about what could have prevented this accident. We average 13 Accidents during the Nine Day Air Venture in Wisconsin with 90 Percent being landing accidents. This webinar will be led by Jurg Grossenbacher, Milwaukee FPM and Scott Cabot, Ground Instructor, FAA Lead Safety Representative and our Pro-Tips Team.

Additional Discussion points:

1. Man- Human factors
2. Machine
3. Mother Nature
