

Pro Tips for CFIs Surviving an Accident

Your aircraft has just crashed thru the trees in the middle of nowhere what would you do?

Aircraft accidents do not always occur in urban areas and the pre flight preparations that a pilot has taken might just mean the difference of life and death for all of the occupants. Have you spoken with your students about this subject during their training. Al Thilmany, Minneapolis Front Line Manager and Ex-Military Pilot will lead us through this discussion. **We will talk about, where am I?**

- Does someone know I went down?
- Where is my cell phone?
- Where are my glasses?
- I wish I had a compass.
- It sure is dark, cold.....and wet.
- What have I taught my students or clients?
- Dress to egress!
