

Aircraft System Basics

Join Richard Morey, an aircraft mechanic and flight instructor as he explains in simple detail the operation of the charging system, the ignition system, and the like. Rich is a 21,000 hour instructor and Inspection Authorized Mechanic. Easily understandable terms and explanations will leave even the least mechanical minded with an understanding of how these systems work. This understanding will help you as a pilot fly more safely and confidently.

The Morey Conference room is directly adjacent to the office and lobby
