

## Madison IMC Club

We will start by sharing a video that sets-up our scenario, "Unknown Icing In Minnesota" (Topic: Winter Instrument Flight Rules presents unique hazards with little margin for error. How much confirmation of benign conditions is enough for a well-equipped, high-performance single that's not certified for flight into known icing? And is icing the most important risk factor to consider on this cold-weather flight?)

We will be discussing different course of action through input all of the attendees. Through our discussion you will learn that scenarios can be handled differently.

Follow signs to Dane County Regional Airport. Wisconsin Aviation is located at 3606 Corbin Ct. We will meet in the Main Conference Room.
