If you are having trouble with consistency in your landings and wonder why this is happening you will realize why and how you can improve them. This workshop is an all-day 6 hour pilot training workshop that will offer all of the three Basic Knowledge of WINGS and one Basic Flight Activity. The concept of these *workshops* is to show the pilot why WINGS makes a great alternative to the flight review and will demonstrate to the pilot that training in simulators is a great improvement in General Aviation Safety. We offer a Basic Flight Activity for A070405-07 Takeoffs, Landings, and Go-Arounds for the 1.5 hour simulator portion signed by your instructor.
