If you ever wondered how You would react to an Emergency then this workshop is for You. This workshop is an all-day 6 hour pilot training workshop that will offer all of the three Basic Knowledge WINGS credits and two Basic Flight Activities. The concept of this workshop is to show the pilot why WINGS makes a great alternative to the flight review and will demonstrate to the pilot that training in simulators is a great improvement in safety. The pilot will have to fly with their instructor in the airplane to receive credit for A070405-08 Slow Flight, Stalls, and A070405-07 Takeoffs, Landings and Go-Arounds, in order to get credit for the Basic Phase of WINGS.
