

Do You Know Your Aircraft Systems

The lack of understanding Aircraft Systems is one of many reasons that are part of the causal factors in General Aviation

Instructional and Solo Flight Accidents. This seminar will help tie these issues together by giving the Instructor the tools to gain a better understanding of aircraft systems, available resources and pointers. Our panel of Instructors and Aircraft Mechanics will be on hand to answer your questions.

Tying it all together:

1. System Knowledge- POH
2. Hands on by visiting the Maintenance Shop
3. Having your Aircraft Mechanic come to ground school
4. Learning the aircraft Systems before you give Dual Instruction

Event Details

Mon, Mar 3, 2025 at 18:00 CST

Main Terminal Conference Room

1716 W Airport Road

Janesville, WI

Contact: Jurg Grossenbacher
