This presentation is an accident case study.

At first glance the accident cause may appear obvious, but during this interactive presentation attendees will discover numerous factors that may have contributed to the crash. Attendees will gain renewed awareness of the need for vigilance, proficiency, and situational awareness even during what may seem short and routine flights.

WINGS credit available!

To receive WINGS/AMT credit fill out attendance sheet onsite.

The Central Florida Aviation Academy is the high school building on the Sun-n-Fun grounds across the street from the museum. The seminar room is on the second floor.
