

Understanding Aircraft Systems

This safety seminar is being presented by Richard Morey, Richard is a Flight Instructor and Inspection Authorized Aircraft Mechanic.

Richard will discuss basic aircraft systems to give you a better understanding of how they work and just as important Richard will explain the Abnormal's and Emergency Procedures that a pilot must understand to maintain a high level of safety. will give the participants a hands on experience in understanding of aircraft systems.

This seminar is participant interactive. Questions are welcome at any time during the presentation. Expect to be hands on with magnetos, ignition harnesses, alternators, and vacuum pumps.

Morey Airplane Company conference room, Middleton, WI.
