

ATC Communications Back to Basics

Communication procedures between pilots and air traffic controllers don't have to be intimidating. During this webinar FAA air traffic controller Karoline Gorman will emphasize proper radio phraseology, clearances, read-backs, and the use of standard ICAO and FAA terminology. By attending you will learn to interpret and deliver instructions with precision, maintain situational awareness through exchanges, and respond effectively to routine and emergency scenarios. Whether a seasoned pilot or just starting out, all pilot levels are welcome to attend.
