

Madison IMC Club

We will start by sharing a video that sets-up our scenario, "Lee landing Limbo" (Topic: Low clouds, small runway, slick airplane ... this sounds like an NTSB report waiting to happen. Then again, you have the skill, the fuel, and the time to make a well-executed attempt with no pressure to make it work out. And you have several backup choices. Stick with the plan or bail out now?)

We will be discussing different course of action through input all of the attendees. Through our discussion you will learn that scenarios can be handled differently.

Follow signs to Dane County Regional Airport. Wisconsin Aviation is located at 3606 Corbin Ct. We will meet in the Main Conference Room.

A message from the National FAASTeam Manager
