

EAA Chapter 18 Monthly VMC / IMC Club Meeting

VMC Question of the Month: Are pilots allowed to modify the manufacturer-provided checklists used for operating their aircraft? EAA provides monthly program resources in the form of actual IMC related scenarios designed to encourage open discussion, and for all participants to answer the question "What would you do if this happened to you?"

IMC Question of the Month: When should flaps be retracted when making a stall recovery?

The EAA VMC and IMC Club provides a "hangar flying" experience organized around instrument flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion about unusual or interesting charts, changed rules and procedures, and member experiences. We also have occasional guest speakers.
