

First Flight After Annual Inspection

Do you understand all the tasks required for an Annual Inspection that your mechanics accomplish? Do you know what you are responsible for? If the answer is: "I am not sure," then this workshop is for you!

How well do you Pre-Flight? Can you spot potential problems?

Pre-flight our Sky Catcher and see how many issues you can spot. Will some of them cause disaster in the air or just minor annoyances? Your simulator time will divulge some of these issues. Can you handle the ensuing emergent situation? Come find out!

Doors open at 8:30am and we will finish up at 2:30pm.

**There is a cost to attend this workshop
you can Call EAA at 800-564-6322 or
