

Landings Unraveled

If you fly airplanes then this seminar is a must! Takeoff and landing accidents account for 45% of all GA Accidents and Wisconsin had 18 landing accidents in 2022 alone, why is that? Is it that pilots aren't proficient? Is it that pilots forget the basics or is it because they try to save the landing rather than perform a go around.

During this seminar **Jurg Grossenbacher, Milwaukee FAAsT Team Program Manager**, will answer these questions for you.

- Why are we talking about landings?
- What is a Stabilized Approach?
- What isn't?
- How do we stay safe?

We meet at the EAA Chapter 22 Hangar. Look for the big EAA sign on the hangar, at the end of the row at the first right turn after the gate. We start with a meal at 6, and the meeting starts at 7:00 pm.
