

Madison IMC Club

We will start by sharing a video that sets-up our scenario, "Back Course to the Future" (Topic: Standardization and experience are cornerstones for professionalism on the flight deck. The potential dark side of those same traits can be complacency and expectation bias, not to mention overconfidence. Now you have seconds to figure out a situation that seems to make no sense—and there's precious little room for error.) Analyze the situation and compare your ADM with the video analysis.

We will be discussing different course of action through input all of the attendees. Through our discussion you will learn that scenarios can be handled differently.

Follow signs to Dane County Regional Airport. Wisconsin Aviation is located at 3606 Corbin Ct. We will meet in the Main Conference Room.
